Description

Ce contenu est une compilation d'articles de l'encyclopédie libre Wikipedia. Anicius Manlius Severinus Boethius, commonly called Boethius (ca. 480–524 or 525) was a Christian philosopher of the early 6th century. He was born in Rome to an ancient and important family which included emperors Petronius Maximus and Olybrius and many consuls. His father, Flavius Manlius Boethius, was consul in 487 after Odoacer deposed the last Western Roman Emperor. Boethius, of the noble Anicius lineage, entered public life at a young age and was already a senator by the age of 25. the Ostrogoths. In 522 he saw his two sons become consuls. Boethius was executed by King Theodoric the Great, who suspected him of conspiring with the Byzantine Empire. It may be possible to link his work to the game of Rithmomachia.
