Description

Par son approche artistique et hyperréaliste, le travail de Gabi Ben Avraham est unique. Il porte non seulement une réalité, mais aussi un regard qui transcende cette dernière au point de nous interdire de ne pas savoir. Les portraits et villes sont autant de rencontres photographiques que d'illustrations de cultures ou de systèmes sociaux. Mais quelle que soit l'illustration, le photographe a su en préserver l'extrême beauté.

Through his artistic and hyperrealistic approach, Gabi Ben Avraham's approach is one of a kind. Not only does it convey a true kind of reality but also a look that goes so far beyond that we are forbidden not to know. Portraits and cities are each a photographic encounter as well as an illustration of a culture or of a social system. In all of them, the photographer managed to protect their great beauty.
